PROFESSIONAL SUMMARY

Motivated First-Year Electrical Engineering student passionate about Control Systems and Industrial Automation. Skilled in AutoCAD, SOLIDWORKS, and Microsoft Office, with a strong desire to develop practical engineering skills, explore modern automation technologies, and contribute to innovative engineering projects. Eager to learn, grow, and build a strong foundation for a future career in control and automation engineering.

TECHNICAL SKILLS

- SOLIDWORKS: 3D Modeling and Mechanical Design.
- AutoCAD: 2D Drafting, Technical Drawing, and 3D Modeling.
- Microsoft Office: Word, Excel, and PowerPoint.

Projects

- Smart Desert City | Research New Mansoura University October,2025
  - Built a smart-city engineering framework for a sustainable desert environment.
  - Integrated power systems and infrastructure solutions tailored for New Mansoura.
  - Delivered technical models and strategic plans to academic faculty.

- CNC Laser Machine | Personal April,2026
  - Delivered technical models and strategic plans to academic faculty.
  - Calibrated motion system for real-world accuracy.
  - Solved hardware and wiring issues during setup.
  - The firmware (GRBL/Fluid NC) has been optimized for stable performance. It is running on Lightburn software.

Certifications & Training

- Explore SOC tools and technologies with Microsoft Security certification – Microsoft Learn
- Understand security operations centers (SOCs) certification to manage cybersecurity – Microsoft Learn

EDUCATION

Bachelor's Degree in Electrical Engineering
New Mansoura University, Faculty of Engineering
Started in September,2025 - Predicted Graduating,2030
